Look Book

- Look Book templates are a set of Microsoft-provided site designs that programmatically add custom user interface elements to SharePoint Online sites.
- Microsoft has published a public web site with a set of showcase templates should satisfy most customer needs. Each category of templates targets the functionality of various industry verticals.

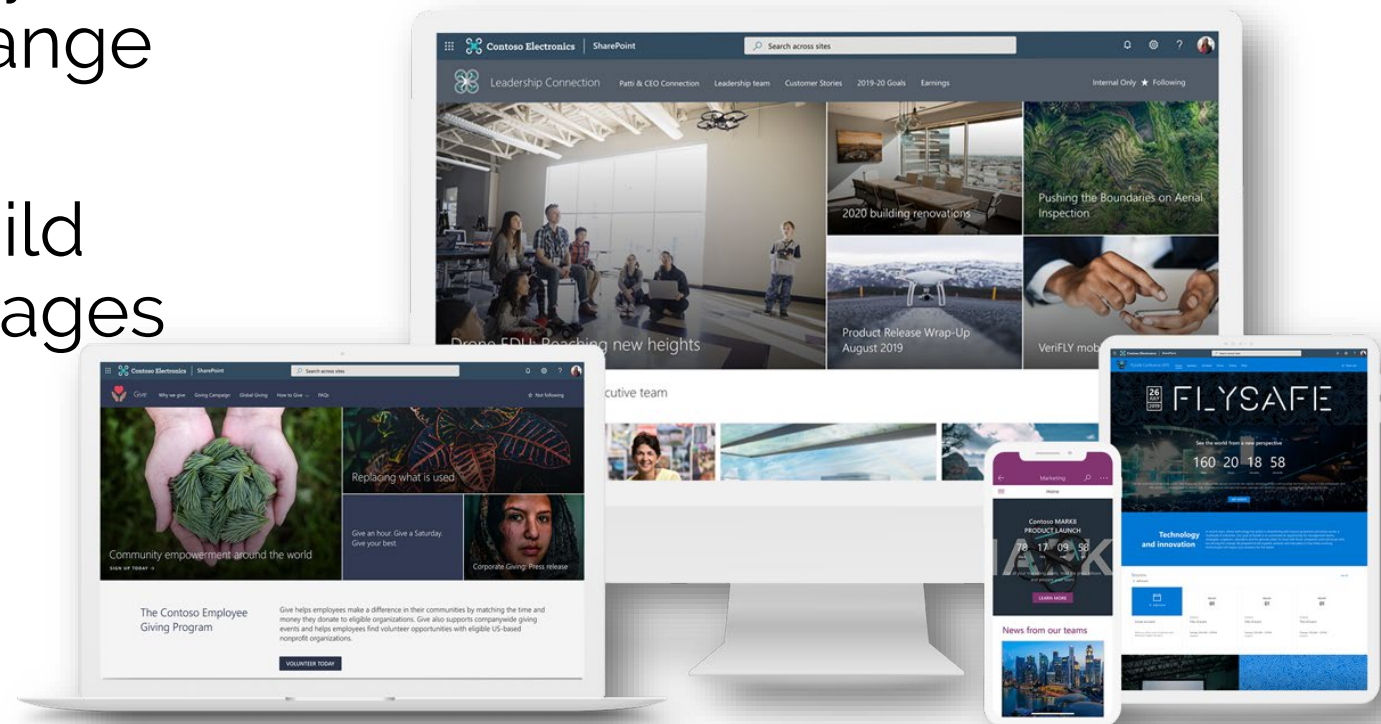

SharePoint look book

- Design beautiful and performant sites, pages, and web parts with SharePoint in Office 365.
- Get inspired. Discover the modern experiences you can build with SharePoint in Office 365.

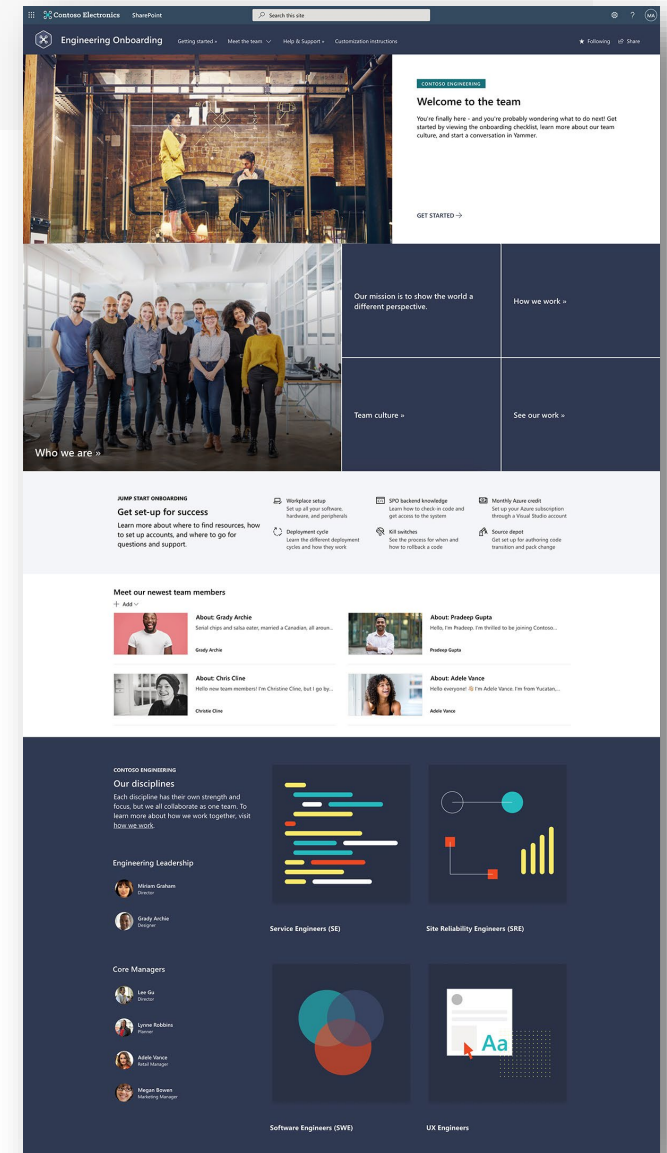

Responsive by design

- SharePoint's responsive experiences scale seamlessly across devices to display your content beautifully on a range of different screen sizes.
- Now you don't have to build multiple versions of site pages for different devices.

Custom branding

- Your intranet, your brand
- Building a strong corporate brand that is professional, consistent, smart and accessible are keys to fostering employee engagement, connection, and commitment.

Next Steps

You can provision your SharePoint site after you confirm that you and your tenant meet the following prerequisites:

1. You're using global admin credentials.
2. Your tenant has the App Catalog installed.
3. You're an administrator of the App Catalog.
